UAWiFi is the best wireless choice on campus in terms of both speed and security.

1. Select the **Settings** icon in the Charms bar (the Charms bar can be accessed by pressing WINKEY + C on the keyboard or moving the cursor to the top right hand side of the screen).

2. Select the **Wireless** icon.
3. After you select the wireless icon, the wireless network(s) list will be pop up. Select **UAWiFi**. If you do not see UAWiFi, UAWiFi may not be available in your location.

4. Select **UAWifi** and click **Connect**.
5. Enter your NetID and NetID password in the Network Authentication window and click OK.

6. If a Windows Security Alert pops up related to validating a security certificate, simply select Connect.

Congratulations, you should now be connected to UAWiFi!
